

We can't say that Bully George acknowledged spying on Americans. Just because he brags about it is no reason to admit there is any evidence he spied on Americans. He might get mad.

Shhh. Let's not suggest investigating Heartless Dick. He might not like it.

Why don't we say "alleged" in connection with spying? Maybe, Bully George won't get mad about that.

Besides, it would make us look bad if we hinted Dick did anything wrong.

Maybe we should send Bully George and Heartless Dick bouquets of roses to let them know we love them. All in favor?

I would like to thank you chickens in the California Democratic Party for that resolution condemning the government of Iran. I will include your resolution as one of my reasons for war with Iran. This is proof that the country is united against Iran. Next, I would like you to go back and put together resolutions to condemn the governments of Syria, Venezuela, Bolivia, Cuba and wherever it is that I want to attack after them.

Of course I support the killing of innocent peacemakers. I'm running for governor. I don't want to appear soft on killing innocent peacemakers. Only 70 to 80 percent of Californians support a moratorium. I don't want to upset the other 20 to 30 percent.

I'm running against you. I don't want to upset that 20 to 30 percent either.

I'm running for Senate. I voted for the genocide in Iraq. I fully support the killing of innocent minorities.
